Aplikācijas lietajam seguma

Aplikācijas ir lielisks veids kā kardināli mainīt EPDM rotaļu laukumu izskatu.

Aplikācijas, tāpat kā lietais segums ir izgatavotas no SBR un EPDM gumijas granulām.

Dažas 3D aplikacijas tiek lietas kopā ar segumu, dažas montejamas uz gatava seguma.

2D aplikācijas tiek lietas kopā ar segumu.

Aplikācijas tiek izgatavotas no pārstrādātiem materiāliem, tāpēc ir draudzigas videi un izturīgas pret UV ietekmi.

Mūsu katalogā atradīsiet 3D un 2D aplikācijas.
